

## Pillowghan

1. Make thirteen (13) 12 x 12 granny squares.
2. Sew 12 of them together in a 3x4 grid.

Then attach the 13th square to the center square at the bottom of the afghan, **right side facing the right side of the afghan.**

Sew three sides to the afghan, **leaving the 4th side open, the side that faces the inside of the afghan.**

Now, it is time to fold the afghan up and “turn” it into a pillow!

1. Lay the afghan flat with the pocket on the side that is facing down.
2. Fold the afghan lengthwise on the seam lines. The afghan will now be one square wide and four squares tall, and three squares thick.
3. Starting at the opposite end from the pocket, fold one square over in the direction of the pocket.
4. Now, fold one more square.
5. Turn the pocket inside out OVER the folded afghan.

**VOILA! A Pillowghan!**
